Green Skills and the Energy Transition in Botswana

June 2026 | 27 pages | Audience: Investors - Policymakers - Students

SUMMARY

Solar installation, storage maintenance, energy auditing and grid-adjacent trades: the green-skills occupations Botswana will need as generation capacity diversifies.

KEY POINTS IN THIS BRIEF

- Green occupation map for the next project cycle
- Certification requirements for renewable energy work
- Training institutions currently delivering these skills

TAGS: Green skills | Energy | Transition
